Most children's first word is mommy or daddy. So your son called you a cow!

Goo moo doo-doo. Translation, "Go away you piece of cow-sh*t."

The baby hated me! He was so angry at me because I wouldn't allow him to just loll around, not seeing, not speaking, not understanding, and not moving around. You should have seen how furious he was at me when I performed the various therapies on him. However, I discovered that when he was angry, he tightened his muscles to make an effort to move. He walked his first steps at 22 months of age, despite the physio-therapist telling me right from the start that he would never be able to walk...that he'll have to be in a wheel-chair...his muscle tone is too poor. It would taken a miracle to make this lame boy walk. Well...Heidi performs miracles. She made the lame to walk, run and jump; the blind to see, and the "idiot" to think and gain an understanding. ;-)
