Yes— I do tend to oversimplify on Usenet. And from my reluctant acquaintance with certain monotheistic "sacred" texts in Middle-Eastern languages I'm inclined to think that the whole idea of writing without vowels is a recipe for disaster anyway, whatever the language.

The only languages written "without vowels" were Phoenician and Egyptian, and there were no "monotheistic 'sacred' texts" in either of them.

I didn't put "without any vowels" (amazing how much ambiguity can creep into the simplest of messages)...
