therapy with a few oral drops, you may avoid or lessen the severity of detoxification. If you have begun your therapy with larger amounts, and are experiencing unpleasant symptoms, decrease the amount you are ingesting and continue with smaller doses. Homeopathic remedies and simple herbs can also be used and are often of great help during detoxification to relieve headache, nausea, diarrhea, etc.

10. Children

Several research studies, such as those done by Drs. Krebs, Piesch, Duncan, Lewis and Dunne, deal specifically with the treatment of children with urine therapy. The easiest internal form of the therapy for children is oral drops of the child's own fresh urine. As mentioned in the studies, for acute flu, colds, viral infections, measles, mumps, chicken pox, etc., small frequent oral doses of 1-10 drops during illness have been shown to be very effective. For allergies, the research studies indicate that several drops of fresh urine should be given orally before and after meals containing allergenic foods, or w
