Hello,
I have a question.

A.]

Consider this statement below:–

He played music on the Mp3 player in his car, which was newly purchased.

Now what connotation does this above sentence give , does it mean:

1.) that the MP3 player is newly purchased

Or

2.) that the car is newly purchased

Now how do i change punctuation of this sentence to get above two different connotations:

What arrangement of the pronouns and the semicolon, give which kind of connotation.

B.]

Under which Part of Speech of English Language grammer is this kind of grammar covered ?

Thank you
