At least I think we remain substantially in our precedent positions about the Disc; but the discussion was very useful, indeed.

I hope in a future not so far we can congratulate about the best solution to all this matter.

I return now to my Elder Pliny, but (as I say everytime in such occasions), I hope we'll remain in contact (via mail if possible, you have my e-address [excuse my repetition]) to observe fore-developments about this one or different argumentations.

Thank's so much and good bye.

Your  
FGC
