> *"If you have the list of computables, a random real number can be on it to an infinite number of digits, and yet not be on the list" True / False / Other*

As stated: false. The real either is or is not on the list, but not both.

> *"If you have the list of computables, a random real number can be on it to an infinite number of digits, and yet not be on the list" True / False / Other*

True as phrased. (Example: S_3 and 1/3, TX_10 and any q whose denominator has a prime factor other than 2 or 5)
