Hey Craig,

Once again, thanks for being part of this pre-notification list for Pay Per Click Formula.

Well it has been a week now since I launched my home study course Pay Per Click Formula and over the last seven days I have shipped hundreds of packages to buyers from all over the world.

The forums are now buzzing with excitement as many new Traffic Brokers are exchanging ideas and resources to help each other get started in this lucrative business.

The launch did actually start off with problems as all my servers crashed with the surge of traffic at 12:00 pm last Tuesday.

But once that was fixed, the orders started to come in fast and furious.

One of the biggest questions I received were from people who wanted a payment plan, so that they did not have to pay the one-time fee all at once.

I have introduced a two-month payment plan to help ease the burden on people who really want to get their hands on my course.

The one-time cost of \$697 can now be paid over a two month period in two equal installments.

Did you know that if you are in North America and if you order before 2:00 pm today that you could have my course sitting on your kitchen table tomorrow morning?

WHITE SPACES Re: Craig, the aftermath...

I was stunned that customers in Hawaii were telling me that they were receiving my course the next day.

I have already scheduled the first teleseminar for tomorrow night as I want to keep the momentum going and start to see results from my customers.

If you have been looking for a business model that can help you build a long-term income on the Internet, then consider this about the traffic brokering business:

1. There are no barriers to entry.
2. CPA networks are free to join.
3. Most pay per click search engines are free to join besides Google and MSN who only charge a \$5 set up fee.
4. You can buy targeted traffic and send it to CPA leads offers in less than 10 minutes.

Most people will not hesitate to spend \$100,000 on a four year college degree that provides no guarantee for a job.

My course only costs \$697 plus shipping with a 60 day money back guarantee.

So why do people hesitate? It is because the way we have been conditioned to think.

People relate a college degree to stability where as income programs on the Internet are treated with skepticism.

And rightfully so with all the scams and garbage being sold.

Which leads us to the *tremendous* feedback I have received from buyers and non-buyers to the sales letter I wrote for the course.

I told you that it would not be the traditional Internet marketing sales letter that you may be accustomed to reading.

It did not contain any hype or make any false promises. I simply presented my story and provided factual proof.

I hope most Internet marketers will follow my lead and start writing what I like to call "honest copy" and treat people

WHITE SPACES Re: Craig, the aftermath...

as people rather than as another sale.

Will that happen? I doubt it and that is why you need to guard your purse or wallet.

If you haven't purchased Pay Per Click Formula, I still want you to get started in this business.

I honestly believe that this is the fastest way to make money on the Internet.

But it isn't easy to build a massive fortune online. It takes a lot of work and dedication.

If you want to exceed at anything in life, you need to take a few minutes to watch the following video that shows you how:

Thanks to my buddy drmani for pointing this out to me from John Delavera's blog post.

So where does that leave you and me?

I will still send you complimentary issues of my Cool Cash Multimedia Ezine in which I cover the latest Internet marketing tactics.

If you do not wish to receive communication from me anymore, it is real simple to get off this list. Simply click on the link at the bottom of this email to unsubscribe.

Whatever you decide, I sincerely wish you the best of luck in your future and hope you achieve your dreams.

Think big and don't let anybody tell you that you can not achieve the impossible. You just need to start taking action although it may involve some risks.

But remember...

"To conquer without risk, is to triumph without glory..."
