<Sigh.>

I've taken the trouble to report pjmutnick's off-topic spam and request JJ's posting privileges be restored.

JJ might consider downloading a newsreader (Thunderbird for Mozilla, I guess, or Free Agent) which is much more convenient to use than Google's web interface anyway.

AOL probably has Usenet servers; I use a public server nntp.aioe.org .

Fat chance if you keep promulgating this title. In fact, if you keep doing that, I will report you as well. Watsamatter, seeing the original subject matter of my post does something to your limited brain capacity? Or are you another bigot that just reacts whenever you see anything that looks even slightly religious?
