[Firstly, I would like to know if there is a facility in this User Group to upload a document.] Pl read on ...

I am quite a beginner as regards the 3 Notebooks of Ramanujan published by TIFR in 2 Volumes. Then, as I wanted to read the proofs of Ramanujan's Theorems as published by Bruce C Berndt in his 5-Part books, I noticed that there is an obvious strong reference made to the 3 Notebooks and the 2 Volumes of TIFR. I then thought that it is very essential at least for a beginner like me to have some form of a quick-reference TOC / index to these creations of Ramanujan.

This effort was relatively easier wrt the so-called "organized parts", the 21 Chapters ; however, I need some help to update (and correct) the TOC / index as regards the "unorganized parts" – specially the parts that I have described as "Misc" in my prepared document. I have categorized Misc itself into 3 main types. It would be great if someone could help me state the split of appropriate subject(s) for these Misc Pages.

For eg, in Volume I, ie, NB 1, I could count a total of 121 pages – marked " *"under my so-called Misc category. Since it is claimed that there are 100 Unorganized pages in NB 1, I would like to know which 100 pages of these 121 pages fall in the Unorganized category.

Now, how do I upload my document (SR_NBs_TOC_Index.doc) ?

If there is no such facility to upload documents in this User Group, interested readers can request me by sending me a mail to my email id : sundarkrishnan@hotmail.com
