Call for Papers: International Conference on Education and Information Technology (ICEIT 2007)

International Association of Engineers (IAENG)

San Francisco, USA, 24–26 October, 2007

<http://www.iaeng.org/WCECS2007/ICEIT2007.html>

The conference ICEIT'07 is held under the World Congress on Engineering 2007. The WCECS 2007 is organized by the International Association of Engineers (IAENG), a non-profit international association for the engineers and the computer scientists. The conference has the focus on the frontier topics in the theoretical and applied engineering and computer science subjects. Our last IAENG conference has attracted more than one thousand participants from over 50 countries, and our IAENG conference committees have been formed with over two hundred committee members who are mainly research center heads, faculty deans, department heads, professors, and research scientists from universities like Harvard, MIT, Stanford, UCLA, UC Berkeley and Yale etc.

The conference proceedings will be published by IAENG (ISBN: 978-988-98671-6-4) in hardcopy. The full-text congress proceeding will be indexed in major database indexes so that it can be assessed easily. The accepted papers will also be considered for publication in the special issues of the journal Engineering Letters and other IAENG journals. Revised and expanded version of the selected papers may also be included as book chapters in the standalone edited books under the framework of cooperation between IAENG and Springer. Dr. Mark de Jongh, Senior Publishing Editor, Springer SBM NL, will also give a presentation about book publishing with Springer. Dr. Mark de Jongh will also be available during the conference period to talk to potential authors whom may have a new book idea/proposal.
