Call for Participation:
Relations and Kleene Algebra in Computer Science

10th International Conference on Relational Methods in Computer Science (ReMiCS10)

in conjunction with

5th International Conference on Applications of Kleene Algebra (AKA5)

7–11 April 2008, Frauenw=F6rth (near Munich), Germany
http://www.uni-augsburg.de/rel_aka

The ReMiCS Conference is the main forum for the relational calculus as a conceptual and methodological tool. The AKA Conference is a meeting on topics related to Kleene algebras. As in previous years, the two events are co-organised; they have a joint programme committee and joint proceedings.

Registration deadline: 15 March 2006

Programme:

The conference features 2 invited talks and 26 contributed papers. In addition, there is a PhD programme with 3 invited tutorial and 8 contributed talks; participation is open for everyone.

Invited Talks:

Marc Pauly (Stanford)
Formal Methods and the Theory of Social Choice

Gunther Schmidt (Munich)
Relations Making Their Way From Logics to Mathematics and Applied Sciences

The full programme as well as registration details are available at the conference website.
