My earlier post should read:

I have a four part question in a tutorial, parts 1 & 2 I don't have any problem with. Parts 3 & 4 I have no idea what they mean. Can someone explain to me what parts 3 & 4 mean and how can I answer the questions.

Alternatively if you can point me to a website that might be of some help.

The question:

Draw the truth tables for each of the following expressions:

1. $AB'CD' + ABC'D' + A'BC'D + A'B'CD$
2. $(A + B' + C' + D)(A' + B + C + D')$
3. $\Sigma m(2,5,6,9)$
4. $\Pi M(0,7,10,11)$

3 & 4 should read:

$\Sigma m(2,5,6,9)$

$\Pi M(0,7,10,11)$

Appreciate any help.

TIA
