gnh888@xxxxxxxxx nous a récement amicalement signifié :

Thanks, Patrick, for the explanation how to calculate the sum.

I searched http://en.wikipedia.org/wiki/Polynomial_sequence

I can not find the name of this polynomial on "wikipedia"

What is the name of this type of polynomial?

Do you know of websites with practical examples,
explaining other forms of my problem?

gnh888

I don't think there is a common name.

I don't know dedicated sites.

Sorry
Patrick

.
