I am not showing out my proof to everyone in this forum .

I am here to seek out someone who can take up the task of checking and verifying my proof for FLT . It is a very simple 4 – page proof that requires only minimum mathematical knowledge with a extra cunning imagination .

To take up the task , please email me your msn(if you have one) your email and if possible , I will keep steady contact with you while I send you the my attempted proof .

Thank you ,

John Howard Sim
