I am not showing out my proof to everyone in this forum .  
I am here to seek out someone who can take up the task of checking and verifying my proof for FLT . It is a very simple 4 – page proof that requires only minimum mathematical knowledge with a extra cunning imagination .  
To take up the task , please email me your msn(if you have one ) your email and if possible , I will keep steady contact with you while I send you the my attempted proof .  
Thank you ,

Hi

Do you mean exactly it requires common sense ?

but any way mathematicians in general at (up and down) level hate to see such a proof, but they eagerly want know it themselves even it costs them their life time hopelessly , that is why they didn't ask Fermat about it.

Re: Proof Attempt For Fermat's Last Theorem

I hope to be mistakin

Best of luck

B.Karzeddin-

Hope no more: you ARE mistaken.

Tonio

The proof has been sent . Whether it is flawless or not , it all depends on Jay to verify it now .

.
