The proof has been sent . Whether it is flawless

or not , it all

depends on Jay to verify it now .

Flawed, as expected. :-)

I have e-mailed the refutation.

I'm shocked! A flawed proof of FLT by a math fan BUT NOT a mathematician, who also loves to gossip about how REAL mathematicians behave/research/work?? Nooooooo....really???!?! That hardly happens....what, some 4-5 times ONLY in the last 3-4 months and ONLY in the NG??

Re: Proof Attempt For Fermat's Last Theorem

Anyway, when I wrote "hope no more...etc." I was in fact referring to Bassam, not to Jiahao...

Regards

Tonio

Pd. BTW, it seems to have been a rather gross flaw and in the first page, uh? I mean, from what I read....I haven't seen the paper, though.

Hi

I'm really shocked about your opinions about me.!!

Didn't you learn something from my flawed proofs?

Didn't you learn something from my undefeatable conjectures?

Didn't you learn something from my perpetual formulas?

Do you know that I really may have the proofs?

All your concerns is about an issue that is non-mathematics, where I do possess a strong REASONS.

Didn't you learn how history can be rewritten.?

Then, Google the words "fermat's last theorem short proof" and WAIT and tell me please

WHERE ARE THE journals?

WHERE ARE THE others?

ISN'T GOOGLE OF our kind?

My Regards

B.Karzeddin
