Here's a simple challenge for you: Name one lie a sci.math poster other than you has told in a JSH thread.

Many lies are to be found in JSH threads, not all due to JSH. For example, see

<http://groups.google.com/group/sci.math/msg/190dc1967b479cf2?dmode=source>

Whatever JSH's defects, he's not alone in acting in all sorts of silly ways in the news.
