professor ullrich ??????

he has NEVER HEARD OF  $2^{\aleph_0} \geq \aleph_1$

Piffle. He is well aware of the inequality.  
However, you did not claim an inequality, you  
claimed that the \*equality\*

$2^{\aleph_0} = \aleph_1$

is true (if you doubt this look at your original  
post).

No comment?
