Hey, JSH, asshole:

You have received so much input that has allowed you to improve your theories—yet not only do you not give credit, you even insult those who help you.

Plus, stupid bitch: you want to talk about decency? WHEN have you posted in an attempt to help ANYONE but yourself, cunt?. You only care about yourself and your well-being, yet feel free to criticize others.

And, still, despite devoting 12 YEARS ! to your one goal—the ONLY thing you do in your life (this is because anyone who knows you well-enough chooses to stay away from you),and while constantly getting feedback—from people you insult—YOU STILL HAVE NOT SUCCEEDED!

You are a worthless loser, both as a mathematician and as a human being (aka, a turd someone shit, and which just barely survived being flushed down).

Enjoy your night.
NOT SUCCEEDED at it
