Oh, stop lying to everyone, Quinn. I wasn't bashing you "for over a year".

no , it has to be at least 2 years of course.

Tommy1729 is talking out of his ass again, as usual.

C'mon, show a post in 2006 from me bashing Quinn. Tommy1729, you're an idiot.

And nope, no progress for you. You weakened and eventually responded to me. Assuming you were above me (which I don't concede) you stooped down to my level!

you be carefull not to lower yourself to the lowest level of neilist.

and here neilist faces his "doom" ; he admitted his level is lower than Quinn.

Tommy1729 doesn't understand that I didn't concede Quinn being "above" me (as per my parenthetical qualification and the word "Assuming"), so

Tommy1729 and his WRONG definition of the noun "integral" makes Tommy1729 a crank. Shame on sci.m

729 and his WRONG definition of the noun "integral" makes Tommy1729 a crank. Shame on sci.math for not correcting du

I didn't admit anything. Tommy1729 is an idiot.

Tommy1729 doesn't understand clear English and/or is purposely distorting what I said. Typical of Tommy1729.

<snip>

neilist once said he consideres himself polite.

Cite a post, Tommy1729. Or are you YET AGAIN talking out of your ass?

those points should have been math, but since its a neilist post , no math can be found.

not even a mathematical word.

None of Tommy1729 post here has any math either. Tommy1729 is a hypocrite – he insults people for not posting math, when he is at the same time not posting math in his insulting post.

Since Tommy1729 chooses to not post math in EVERY post, I won't be held to a double standard that I have to post math while he doesn't have to either.

Ha ha, Tommy1729 didn't post math in his post to me. Hypocrite Tommy1729.

<snip>

go learn more from your cartoons neilist.

your such a child.

Tommy1729 and his WRONG definition of the noun "integral" makes Tommy1729 a crank. Shame @n sci.m

729 and his WRONG definition of the noun "integral" makes Tommy1729 a crank. Shame on sci.math for not correcting du

<snip>

Frisky Dingo is a hilarious silly cartoon.

Anime are cartoons, enjoyed by many adults. The movies "Waking Life" and "A Scanner Darkly" were very erudite.

So, the media of cartoons does not make the viewer childish.

The poor spelling of Tommy1729 ("your" in "your such a child") was an unintentional and typical misspelling of dumb Tommy1729.

And Tommy1729's distortions and insults make HIM childish, too.

Anyone calling me a child should call Tommy1729 a child.

And if no one besides me corrects Tommy1729's wrong definition of the noun "integral" and his childish evasion and refusal to admit his error, then YOU ARE ALL CHILDISH AND COWARDLY.

You all should correct Tommy1729 when he said:

"integers ...-2,-1,0,1,2,...

integrals 1,2,3,4,...

natural numbers 0,1,2,3,..."

Sci.math refuses to correct Tommy1729?

Sci.math, meet you're "doom"!

.

Tommy1729 and his WRONG definition of the noun "integral" makes Tommy1729 a crank. Shame on sci.m
