IIRC Phil has the whole of Google Groups killfiled, except for certain authors, one of whom is you. So your reply to the spam posting will have been the first time he saw it.

Similarly, I have filters in place which filtered out the original message (so I never saw it), but not the renamed message.

Decent news servers won't even have offered you the message in the first place.

Couldn't fetch article <b26cd7e3-9874-4480-9c25-d9d6677953fe@xx>

""""

Does your news server carry that message currently?

Phil
