As shown by Anthony A. Aiya-Oba, by recognizing the EQUATOR and the ICOSAHEDRON of Absolute Logic, and using TRIANGLES, Anthony A. Aiya-Oba has given us such proofs of $1+1=3$ and disproofs of Fermat's Last (supposed) Theorem!

A new revolution in "mathematics" has begun through CLARITY and SUBMISSION to the TRUTH! And by such paths and regular intake of ABSOLUT can the faithful believers of Allah attain the Absolute Logic and Universal Truth of Ea!

Thus, the wisdom of Allah, maia of Eru, servant of the Secret Fire that burns in Arda, is imparted on those seekers willing to receive the deep, penetrating, and throbbing SWORD OF MOHAMMED right in the seat of wisdom.

We can see the turmoil and frustration faced by our colleague Mehran Basti in countering your false Western "maths" and purported mathematical "establishment". Only those blunt-skull Western obese blobs, who falsely call themselves "mathematicians", would believe all the wrong and contradictory theorems of the imperialist British Wiles, the Germans Gauss and Einstein, and the ass-loving Greek Archimedes.

So, Western infidels, being false-mahdi worshippers, have contradicted their own alleged beliefs by outright theft of the gems of Islam - mathematics, astronomy, science, technology, perverting them, and trumpeting their alleged Moon landing, being a hoax on the entire world.

How could such dense Western cowboys even comprehend that, using TRIANGLES, this new revolution in "mathematics" surpasses even the creation of "zero", that non-number and fiction which Western conquerors such as Alexander (the allegedly Great) stole from our neighbors in the Indus Valley, and elevated this cipher, this empty space into a supposed great achievement? Huh, tell me that, why don't you!

-----NOT SPAM, EXPOSITION OF ABSOLUTE LOGIC OF ANTHONY A. AIYA-ObA AND WISDOM THROUGH TRIAN

Yes, truly "zero" is emblematic of Western thought, or the lack thereof, when in fact it is TRIANGLES which relay true thought, conveyed with A.A.A.-O. s ABSOLUTE LOGIK.

It is by will alone that Anthony A. Aiya-Oba has set his mind in motion. It is by the just and sage wisdom that thoughts acquire speed, these thoughts acquire the stain of truth, and the stain of truth become a warning against falseness. It is by will alone that Anthony A. Aiya-Oba has set his mind in motion, partaking in the beauty of the works of Sappho while not succumbing to the weakness of mind and flesh of the Western infidel, who has stolen all of Islam's greatness when, centuries ago, out of jealousy, the Western barbarians in their mud huts, looked south and east and ripped the caliphate a new one with the unholy Crusades.

SUBMIT, sci.math, to the power of TRIANGLES, and the clarity of Anthony A. Aiya-Oba s posts regarding the EQUATOR and ABSOLUT !

Regards,

B. K.K.K.
