It's my opinion that people come here for many reasons

. Some people come for support, because they are sick, and for what ever reason they are unable to get the information that they need from thier doctors, and they are afraid because they don't know what the problem is.

Some come just for entertainment, and others come just for information to see if others are experiencing the same things that they are.

what get me is the ugliness of those that make light, and speak ugly to people that they don't even know, and try to make others as miserable as they are. I don't feel that's the purpose for the group and there is no telling how many have been drivin away by inconsiderate comments by those that have no feeling or compassion for what someone might be going through and experiencing. Remember, we are all human and we all have feelings.
