I read that and did not see where it is said that Dr. Kitchens entire family was on anti-depressants.

It was mostly a biography, a synopsis of his life.

>*He could have never known*

>*But my theory explains what he could have never known.*

Again, what is your theory ?

That *other* people taking anti-depressants causes Crohns Disease in another family member ?

> *And it is not*

>*correlation and effect, IT IS CAUSE AND EFFECT.*

A correlation points to a cause => effect.

Two different things.
