

Is it better to give to an organization?

Hi..

What is the best way to donate?

You read stories like these and it makes you weary of donating to a private fund. It's crazy! I know it is far and few between, but these must be more pulling scams like this woman.

The sick part is that someone with cancer really could have used the help. People are sick!!

I guess the best rule to go by is not to trust anyone!! I feel sorry for everyone that put their time and money into her benefits.

Is it best to donate to the American Cancer Society or something?

Thanks,
Cameron
