Jesus defeated death not for him but for all of us. In order to open to all us the door towards a happy eternity. He defeated death to let us win that "useless passion" that is the short life on earth, opening perspectives of infinite when every way seemed closed by the black wall of a final and inevitable end. Here we will talk about His Resurrection, trying to answer some questions as the ones which follow for example:

- Why can we understand the sense of our life only thinking of eternity?
- What are the reasons of our Faith?
- And what about people who do not have Faith?
- Why death?
- Can reason and common sense help us in our Faith?
- What is the mistake in the hypothesis which deny Jesus Christ?
