On October 13, 2007, The Bladder Cancer Advocacy Network – BCAN is sponsoring, "Understanding Bladder Cancer," an educational program directed at patients, family members and caregivers. This forum will be held the University of Chicago, Gordon Center for Integrative Science, in Chicago, from 9:30 a.m. to 1:30 p.m. Whether newly diagnosed with bladder cancer, or in treatment for some time, this forum is designed to give survivors and their families a complete overview of the disease, new treatment options and coping mechanisms. Our panel of experts come from the University of Chicago, University of Michigan, Northwestern University, and Loyola University. The forum is free and lunch will be provided. Pre-registration is required, as space is limited. For more information, or to register, please go to <http://www.bcan.org/>

We hope that those of you who live in the area—or are looking for an excuse to spend a weekend in Chicago—will be able to join us.
