Re: What George Galloway Said to The Senate.

Furthermore, it is interesting how every time I post here two email viruses get intercepted by Free-online's excellent anti-virus system, and what a sad little jerk somebody still is to this day.

You are receiving this mail because you have an active virus-scanning service, and either a banned file extension or an email containing a virus has been sent to your address.

The item(s) in question picked up by the service was:
The Worm.Gibe.F virus
and was sent to you from:

?@CPE-139-168-138-84.nsw.bigpond.net.au

You are receiving this mail because you have an active virus-scanning service, and either a banned file extension or an email containing a virus has been sent to your address.

The item(s) in question picked up by the service was:
The Worm.Gibe.F virus
The application/x-msdownload banned filename
and was sent to you from:

?@CPE-139-168-138-84.nsw.bigpond.net.au

The subject line of the mail received was:
Current Internet Security Pack

I must say however that usually they come from France, but it still doesn't do you any good, because Free-online's service is good. And this is the only newsgroup I am currently posting to, so don't say "It wasn't me!"
