If he chooses to listen to foul gossip on usenet and use it to bully his own wife, and give me seven minutes of him *abusing* her on the phone, *recorded* on my pretty blue MP3 player, then he is going to regret the moment he decided to mess with me. I have plenty to back up what I say is true, and he is going down.

One month missing is far too long for somebody who has *always* been in contact daily.

And I have the moment when she realises how *he* has deceived her, and *abused* her, and took her for granted, after she *worked* to put him through college, in an email, and it is enough to make any sane human being cry.

I want to know where she is and if she is safe, and one way or the other I am going to find out.

The Hymn of Nemesis:

Nemesis, winged balancer of life,
dark-faced Goddess, daughter of Justice,
You who restrain with adamantine bridles
the frivolous insolences of mortals,
and spurning the destructive violence of mankind
drive out black envy!

Beneath Your unceasing, traceless orbit
is spun the grey fortune of man
and unnoticed You walk in his tracks,
you bend the neck that is proud.
Beneath Your arm You ever measure out life
and ever do You lower Your eye to Your bosom
as You control the scales in Your hand.

Be gracious, blessed dealer of justice,
Nemesis, winged balancer of life.
Nemesis the deathless Goddess we sing,
Victory with slender wings, all-powerful
infallible, and the assistant to Justice,
You who in displeasure at the pride of men
carry it down into Tartarus.
