I think the best policy is to COMPLETELY IGNORE this Lymeraja excuse for a person.

Now "it" claims to be lisa. And there are two possibilities. Either it IS lisa, one of the most psychotic fucked up sick excuses for a piece of crap monster moms ever to try to selfishly claim an agenda for their own benefit

OR

This is "someone" trying to impersonate her (and the evidence is that the posts come from Jackson NJ which is by the way where LDA New Jersey and "the pat" come from.

But what sick pathetic psychotic piece of shit would impersonate Lisa?

It would be like someone claiming to be Hitler or Charles Manson.

Anyway, this mean nasty vicious irrational insane poster whoever it is, has one intention only. To disrupt the newsgroup.

Repeatedly claiming that everyone is McSweegan or "Steere camp provocateurs" etc. with no basis.

I have noticed that increasingly lymeraja HAS been ignored and that strategy seems to work best. Engaging with this moronic psychotic piece of shit only seems to encourage it.

So I for one am done.

Anyone else want to join me?

You can signify agreement by silence!
