Actually Bachynsky paid for one autopsy report from a Dr. Gof. The doctors at the Italian clinic paid for a report on that report Gof did. It was done by Dr.Lazzaro. Finally the clinic itself paid for a report by a third "PAID WHORE" who said DNP didn't cause his death. His name was Dr. Arcudi.

The Italian authorities are very smart. They obtained a search warrant and seized all the specimens that remained from the autopsy of the young Doctor by Dr. Gof. The Blood and Tissues are in the process of being analyzed for DNP.

How convenient that the 3 musketeers hired by Bachynsky and his cohorts didn't bother to analyze the tissue & blood for DNP.

One more note for other interested readers the Texas DNP case was dropped against the foot doctor and that hospital.

It finally appears that Bachynsky tried to do the same thing to the Atlanta Dr. Shanta, he reported him to the FDA and FBI in October,2002.

All this information is on Pacer case 04cr20250 docket #'s 189 & 190.

All information on the Texas case is also on Pacer case 5:04-cr-00025(1)
