Frank, you really have lost your mind.

The WTC was structurally unsound. I don't know exactly, but something like the columns were hollow. My very distant cousins built this thing, and they are also responsible for the RICO laws (Standard Oil).

<http://www.reformation.org/rockefeller-investigates-bush.html>

Ooohhhh Satanic blood lines, huh?

Clinton is a Rockefeller?

I said distant.

"Their main goal was/is to obtain total monopoly on the world's economy by controlling the diminishing petroleum reserves and set up a 1000 year Reich for the pope!! "

ROTFL

I know nothing about such a plan. The Rockefellers are Baptists. Very silly.

Anyway, the Twin Towers collapsed because they were a little cheap on the construction, and the Pentagon damage was enormous, and Rumsfeld was actually there when it happened.

<http://www.cbsnews.com/stories/2002/09/04/september11/main520830.shtml>

The heat and the impact were enormous. Remember these planes were loaded with fuel, because they were flying from Boston to LA.

Burned to a crisp by jet *fuel.* The pinnacle of Standard *Oil's* enterprise. Quite pitiful that we all had to suffer this retribution.

You have to have a *little* mercy on us, Frank. We *all* were crying. Especially when the damned things dissolved on themselves. Consider the intent of Bin Laden and friends. The World Trade Center, the Pentagon, and the White House.

I think the attack was incredibly stupid exactly for the reason that these guys got a worse presentation of what they didn't like about us in the first place.

30 years ago we were very worried about being nuked by Russia and Cuba. That's the thanks we got for liberating Europe. I just regret that we are not of the same collective social sentiment, with the same morality, that we had at that time.

But stop saying utterly ridiculous things, Frank. People won't trust your advice on treating Lyme either.

And try to remember that we are a nation of immigrants. Blood is blood.

I don't like what we are doing now either. I don't like what Standard Oil did. I don't like what Prescott Bush did.
