Since I can't reply on LymeNUT:

JillF you are right, I probably should not be posting on Lymenet!
Thanks for understanding!!

Charles is 'Chuck' on sci.med.

I can post a ton of stuff on here that I found last night from sci.med - basically him saying that there was no loss if Lymenet ('Lymenut') was shut down and that there are rumors that there are problems running this site.

He's not a very nice person - from what I saw at sci.med and have seen from him on Lymenet.

Also, I believe Martijn is 'Martian' on sci.med. Another person who probably should not be posting on Lymenet.

Actually going to sci.med last night really opened my eyes. It is a worthless site and so full of just crap and name calling and making fun of Lymenet and other individuals. They really dislike Lymenet and Tincup over there.

We cannot let this happen to Lymenet.

JillF you are right!

JillF you are right!

I believe Jennifer (or other mod's) have been trying to clear up this whole mess. We need to make sure that our mod's know they have our support - even if we don't totally agree with them. It has got to be a hard job. Let's hope that all the trolls are eventually banned.

And yes, I am well aware that this post will make it's way to sci.med so they can make fun of me.
