Dritte it is such unmitigated nonsense it is truly unbelievable.

But I guess the ANALytical chemist (and to add to her resume: FRAUD LIAR FAKE FELON TERRORIST MONSTER MOM LUNATIC) is really showing us all how much smarter "scientists" are than lawyers.

She sure is proving she's no lawyer.

What a waste of filing fees. And judicial time. And defense costs.

I really hope sanctions and costs are imposed. She deserves them.
