I sure hope both of you are being closely watched as you've both made
terroristic threats. You even advocated that people flood the FBI and
prevent their computers from working--here is your post on that topic:

Here's an interesting thought.

If the USDOJ dot gov is in collusion (US Attorney Kevin O'Connor
and John G. Rowland) with the NeoCons who believe in belligerence and
pre-emptive "Defence," and the USDOJ believes that it is proper to
defend the Yale criminals by inventing other people's crimes and
slamming them away forever for saying they are innocent, (which was

Re: Calling Al-Jazeera

part of the entire plan), then everyone opposed to such abuses of power can become a "terrorist" and jam the DOJ/FBI's email searches with keywords like:

Unibomber
chemist
ammonium nitrate
subversive
bomb
Yale
command
operation
mail

Create several email addresses. Give all of them 950 Pennsylvania Ave NW 20530 as your address.

or, 157 Church Street, New Haven, 06510

I was falsely accused of being "a dangerously intelligent chemist," "like Ted Kaszinski," who has "command hallucinations to kill."

This was invented for me at my DCF "trial."
