

**Re: The College has recognized that Lyme disease is a major clinical and research interest on this campus. The main players in the development of the program were Fish, Wormser and Connolly," Dr. Weinstein advises. The entrepreneurial trio are Durland Fish, Ph.D., former director of the College's Lyme Disease Center and now a research scientist at Yale; Gary P. Wormser, M.D., still professor of medicine and pharmacology and chief of the Division of Infectious Diseases at the College; and John J. Connolly, Ed.D., former College president and current chairman of the board of the American Lyme Disease Foundation, Inc., which had its genesis on the Valhalla campus in 1990.**
