Just got word from another in the liberation army cell from deep within the belly of the evil capitalist beast known as AmeriKKKa....

Bioweapons set to be loosed in the vicinity of Pleasantville, NY. We know how these evil Republican zionist jew (pronounced "JOOOoooooo" while squinting), puppets operate.

Suggest all fellow liberation warriors head to safe territory (Vermont), where we can catch a Phish concert, play hacky sack, do bong hits, and pose in our Che Guevara t-shirts.

Mother Earth be with you .... good luck ....
