Hello.

I've been doing some research and came to this group via cassia.org. I've been dealing with health problems since returning from my honeymoon in 1993. I recently posted on Medhelp and received a response suggesting I consider LD.

Before I continue I'd like to see if this is the correct group for help and what information I can provide to allow this group to help me.

You may respond to my personal email: forgottenfinne...@xxxxxxxxxxxx

Thanks,
Tilly
