Oh, yeah, sure it is.

If you want to hear about every crackpot worthless whacko half-baked scheme to rip off sick people.

I used to refer people over there, but they have managed to ruin the place by booting off anyone with a brain...and apparently, for no other reason than because they had a brain.

If the guy with the six-year-old had wound up over there...they would have had him in the clutches of an "LLMD"...plastic tubes going in and out of the kid...

...and a big firehose sucking the life out of the guy's bank account.

The other day...someone posted over there asking for help and was treated to a long dissertation about how to edit posts.

Just stupid.

And they have made it that way by allowing the crazies like Elena Kook and Snappy to post over there.

Think about it....they allow these loons to post and kick the smart ones off.

Don't make me laugh.
