Re: OT What a good man would say to the Arab nations.

heart,

> *would talk about. Alternatives to oil!! It does not take a genius to*

> *figure out the agenda and who it benefits. Certainly not you moron.*

> *It is ABSOLUTELY clear from his speech where his interests lie and*

> *that he is working for the good of the oil industry and not the*

> *public. Forget the fact that oil will run out in the near future.*

> *Our oil based economy will collapse LONG before oil is anywhere near*

> *running out. The expense of production will be too high.*

That

> *production will produce less oil per day at that higher cost. The*

> *demand will continue to rise. Face the facts and wake up.*

Nice one.. very well stated.

There are rewards and penalties for every human condition... for those with a few extra brain cells the penalty is to grieve in utter astonishment and pain at the mass flow of abject idiocy in the world...and levels of short sighted corruption on both the smallest and largest scales.

There may be a silver lining? What on earth might one take from all this?

Phil Scott
