Fluoride. Come on, drink up.

Fluoride is another major intellect suppressant that is being added to drinking water supplies and toothpaste. Sodium fluoride is a common ingredient in rat and cockroach poisons, anaesthetics, hypnotics, psychiatric drugs, and military nerve gas. It is one of the basic ingredients in Prozac and the Sarin nerve gas used in the attack in the Japanese subway system. Independent scientific evidence has claimed that fluoride causes various mental disturbances and makes people STUPID, DOCILE AND SUBSERVIENT. This is besides shortening life spans and damaging bone structure. The first use of fluoridated drinking water was in the Nazi prison camps in Germany, thanks to the Illuminati's notorious pharmaceutical giant, I.G. Farben. This was the company that ran camps like Auschwitz and it still exists as its constituent parts like Bayer. Does anyone think the

Nazis did this because they were concerned for the teeth of the inmates? This mass medication of water supplies with sodium fluoride was to sterilise the prisoners and force them into quiet submission. Charles Perkins, a chemist, wrote the following to the Lee Foundation for Nutritional Research, Milwaukee, Wisconsin, on October 2nd 1954:

"...In the 1930's, Hitler and the German Nazis envisioned a world to be dominated and controlled by a Nazi philosophy of pan-Germanism. The German chemists worked out a very ingenious and far-reaching plan of mass-control, which was submitted to and adopted by the German General Staff. This plan was to control the population in any given area through mass medication of drinking water supplies. By this method they could control the population in whole areas, reduce population by water medication that would produce sterility in women, and so on. In this scheme of mass-control, sodium fluoride occupied a prominent place."

Charles Perkins said that repeated doses of infinitesimal amounts of fluoride will in time reduce an individual's power to resist domination, by slowly poisoning and "narcotising" a certain area of the brain, thus making him submissive to the will of those who wish to govern him. He called it a "convenient light lobotomy". The real reason behind water fluoridation is not to benefit children's teeth, he said. If this was the real reason there are many ways in which it could be done that are much easier, cheaper, and far more effective, he points out. The real purpose behind water fluoridation was to reduce the resistance of the masses to domination and control and loss of liberty. Perkins said that when the Nazis under Hitler decided to go into Poland, both the German General Staff and the Russian General Staff exchanged scientific and military ideas, plans, and personnel, and the scheme of mass control through water medication was seized upon by the Russian Communists because it fitted ideally into their plan to "communise" the world:

"I was told of this entire scheme by a German chemist who was an official of the great I.G. Farben chemical industries and was also prominent in the Nazi movement at the time. I say this with all the earnestness and sincerity of a scientist who has spent nearly 20 years' research

into the chemistry, biochemistry, physiology and pathology of fluorine — any person who drinks artificially-fluorinated water for a period of one year or more will never again be the same person mentally or physically."

That is the very reason the Illuminati has been expanding the consumption of fluoride ever since and what better way to suppress the minds of the population than through the public drinking water supplies? When we drink anything made from fluoridated water, including beer and soft drinks, we are being slowly and consistently drugged. Fluoride is a by-product of the aluminium industry and the scam to add it to public drinking water came from the Mellon family in the United States, which controls the aluminium cartel called ALCOA. The Mellons are big time bloodline, close friends of the British royal family, and dictators of U.S. policy through the Illuminati network. Industrial fluorines are major polluters of rivers and streams, poisoning land, fish, and animals. It was costing the aluminium industry a fortune to deal with them, but the Mellon family manipulated a situation in which this poisonous waste product became an enormous source of income and human control. In 1944, Oscar Ewing was employed by ALCOA at an annual salary of \$750,000. Imagine what that would be today! But within months he left to become head of the U.S. Government's Federal Security Agency and began a campaign to add sodium fluoride to public drinking water. The Mellons now sell it for use in drinking water and toothpaste at a 20,000% mark-up. Fluoride goes into drinking water at approximately one part-per-million, but we only drink 1/2 of one per cent of the water supply. The rest goes down the drain as a free hazardous-waste disposal for the chemical industry. And we pay for that. But the main reason, as always, is not money. It is control. A former mind controller with the Illuminati told me of the Mellons' deep involvement with the Illuminati and Satanism. She said that to her knowledge the Mellon National Bank in Pittsburgh, Pennsylvania is an Illuminati operation that launders money for them. Would you trust such a family to put chemicals in drinking water and toothpaste because they want to keep your teeth healthy? Not that fluoride does.

We have a Member of Parliament here on the Isle of Wight where I live in England called Peter Brand, who is pressing for fluoride to be added to

our drinking water because it is "good for children's teeth". This man is a professional doctor and the "health" spokesman for the Liberal Democratic Party. In fact, he doesn't know his arse from his elbow and provides yet another example of how doctors are so deeply uninformed. But because they are doctors, many people think that they must know it all. Dr Hardy Limeback, BSc, PhD in Biochemistry, head of the Department of Preventive Dentistry for the University of Toronto, and president of the Canadian Association for Dental Research, was once Canada's leading promoter of fluoride in water supplies. But then suddenly he announced he had changed his mind. He said: "Children under three should never use fluoridated toothpaste or drink fluoridated water. And baby formula must never be made up using Toronto tap water. Never." A study at the University of Toronto revealed that people in cities that fluoridate their water have double the fluoride in their hip bones compared with non-fluoridated areas, and they discovered that fluoride was changing the "basic architecture of human bones." There is a debilitating condition called skeletal fluorosis caused by the accumulation of fluoride in the bones, making them weak and brittle. The earliest symptoms are mottled and brittle teeth, and Dr Limeback said that in Canada they were spending more money treating dental fluorosis than treating cavities. But hold on. At least putting this poison in the water and toothpaste is keeping teeth healthy and preventing cavities, yes? Er... no. As Limeback points out, they have been putting fluoride in the Toronto drinking water for 36 years while Vancouver has never been fluoridated. Get this: the population of Vancouver has lower cavity rates than Toronto! He said that cavity rates are low all across the industrialised world – including Europe, which is so far 98% fluoride free. This was due, he said, to improved standards of living, less refined sugar, regular dental check-ups, flossing and frequent brushing. There were now fewer than two cavities per child in Canada. He said that those who continue to promote fluoride are working with data that is 50 years old and questionable at best. "The dentists have absolutely no training in toxicity," he said. "Your well-intentioned dentist is simply following 50 years of misinformation from public health and the dental association. Me, too. Unfortunately, we were wrong." And not only are we drinking the poisonous

sodium fluoride, we are getting all the other crap from the aluminium industry, too. Limeback said:

"But certainly the crowning blow was the realization that we have been dumping contaminated fluoride into water reservoirs for half a century. The vast majority of all fluoride additives come from Tampa Bay, Florida, smokestack scrubbers. The additives are a toxic by-product of the super-phosphate fertilizer industry.

"Tragically, that means we're not just dumping toxic fluoride into our drinking water. We're also exposing innocent, unsuspecting people to deadly elements of lead, arsenic and radium, all of them carcinogenic. Because of the cumulative properties of toxins, the detrimental effects on human health are catastrophic."

Alzheimer's disease has been linked to aluminium and to aspartame. In an address to students at the University of Toronto Department of Dentistry, Dr Limeback told them that he had unintentionally misled his colleagues and students. For the past 15 years, he had refused to study the toxicology information that is readily available to anyone. "Poisoning our children was the furthest thing from my mind," he said. "The truth was a bitter pill to swallow, but swallow it I did." Yet even though the biggest supporter of fluoride has now condemned its use, the Illuminati-controlled Canadian and American Dental Associations and public "health" agencies, together with those in the UK and worldwide, continue to tell the people that fluoridation is good for them. This is just one example of "the bigger the lie, the more will believe it". Illuminati placemen in the positions of medical administration and "scientific research" tell the doctors and dentists what is "truth and what they should believe. They tell this to their patients and the media, who simply take the official line and repeat it like parrots. Because hardly anyone does any research of their own, dentists, doctors, "journalists", or public, it becomes an accepted "fact" that fluoride in drinking water and toothpaste is good for teeth and not harmful. That same scenario is repeated in relation to every subject every day and, as a result, the human population lives in its own little fairyland. This manufactured illusion is so entrenched in the human psyche that when the truth

does come out, most people laugh in its face. There need to be massive class action lawsuits against the authorities by those who have already had their health devastated by fluoride, Prozac, and aspartame. This is already happening in Canada over the use of mercury, another poison and intellect suppressant, in tooth fillings. And there you have that phrase again which is constantly repeated when the adverse effects of drugs, food additives, and other chemicals in our diet are listed: intellect suppressant. With the truth about fluoride now being more widely circulated, suddenly "new research" has conveniently revealed that it is good for stopping brittle bones and reduces the risks of fractures. This has been used to apply yet more pressure for the expansion of fluoride in drinking water. Fluoride is not there to protect teeth. That's just an excuse. It is there to suppress the intellect of the population so they don't think, question, or rebel."
