Hello to all!

My good friend has been drinking a new holistic product called "GoYin" and has had amazing, life changing results. His acid reflux aka GERD is now totally under control. He used to have to get up several times per night and even sleep with his bed tilted to keep the acid down. Not any more thanks to GoYin!

Please give me a call at 904-536-3342 and I'll send you a sample. I am spreading the word for him because of the results.

www.mygoyin.com/garrettwadford

You may have tried other products, but I've given this to a few people I know personally, that have GERD and not one of them has had any negative feedback. It is also helping people with diabetes to cut there insulin intake by half!!!

Please check out the website and try some of the product. I guarantee the product to work!

PLEASE!!! Try a sample. It may change your life. Tim told me that GERD is almost life changing. Not anymore!

Thanks, Garrett

GERD Solution / Sleeping Disorder / Anxiety Solution

IF this is for real, it sounds like a GABA agonist.

I tried going to the linked website. It is a sluggish web bloated bit of software which didn't seem to describe the product. Perhaps one needs a fast internet connection to use the site.

The product is apparently a Chinese herbal but Spam anyway.
