A larger number of people are starting to learn Arabic, while even more have some contact with the Arab world. Anyone who wishes to learn the language faces that big problem: the alphabet. Anyhow you can visit www.thegreengate.net and proceed step-by-step through all the letters of the Arabic alphabet. Listen to the sounds they stand for and how they are combined into words. Nothing essential is left out, but no unnecessary complications are added.

It is free !!!

Visitors will find that progress is rapid and will be surprised at the relative ease with which they master the first steps in learning this increasingly important world language
