If you do buy on eBay, be careful. I see there are a lot of people selling "Ionic Breezer" and other names similar to Ionic Breeze. They may be just fine, but I do know Sharper Image does honor their guarantee.

You can probably buy the same thing on eBay for under \$100. Be warned, though, that these things are known to last a bout 6 months and quit. Be sure and keep the box to return it to Sharper Image.

Neal

That's good to know, I've thought about buying one for my house!

I have a friend who smokes three packs a day and has an Ionic Breeze, and when you walk in that house, you don't even smell cigarette smoke. However, it is a fairly small house.
