Barbara, did you see the folks at the convention center? You know we drop food and water to folks in Iraq and not to our own people. They have been there, some since Monday. There are dead bodies there (newsman reported on MSNBC). He said there was no national guard or police, no authorities telling them anything. Toilets backed up. Dead bodies all around the center, dead from dehydration. Dead babies. Two men dropped dead in front of him. He was really going on and on (he'll probably be fired). He said no one is sending any help or water or anything. Others were saying they can drop water to other countries why not to us? Well, probably because they don't give a damn. I'm sorry but I think these people are poor, and the wrong color for Bush to give a damn about. Flame me if you want that is my opinion. This is Thursday for Christ sake this is horrible. No excuse for this whatsoever. If nothing else they could be dropping food and water, if they gave a damn. One woman I swear her baby looked like it was dying from dehydration. This is so third world and is BS in this day and age it makes me sick.
