One of my three clients is from a company in Seattle run by the greatest women ever. I have been there about three years now, I think. I just do hem/onc nurses and love it but really love the company. They are truly the best. We have maybe 2-3 meetings a year and they are in Seattle and they are always great -- great source of info and we always have massages and manicures at meetings (all free) and our Christmas party/meeting is even more treats well this year this is our list of pampering now mind you this is all free and we don't even have to tip they do this: Manicures, pedicures, massages, facials, hair, scalp massage, eyebrow waxing! And we always have delicious food! Can you believe it! It is always a wonderful day. All the people that work there are great. We work from all over the country and needless to say some fly in for meetings, especially this one! :) I have to say this is the greatest group of people ever! Teresa are you coming down on the 9th?
