No, we won't be they are already saying this is outrageous and out of bounds. We shouldn't touch this precious man. YUCK. I think they kept him from talking to local Sheriff's that night because he'd been drinking, just my very prejudiced opinion. Funny, this high moral ground party is so devoid of morals and good judgment on a daily basis and show it every single time something like this comes up. If you so much better, show us by your actions and deeds!

I can only hope that thirty years from now we're still making jokes about Dick Cheney shooting a guy in the face, just like they still make tasteless jokes about Teddy Kennedy's Chappaquidick car accident. At least Teddy Kennedy contacted local police about the accident.

Hey, what goes around comes around.
