Years ago on AOL, we had fun exchanging information to learn about each other. Sitting here with some spare time on my hands, I thought it might be interesting to try it this way. I'm posting the questions then filling them in below. Anyone who wants to join in is welcome to do some, no pressure, but come on, live a little.

////////////////////////////////////

Let's start with my name, shall we? Judith Anne Buxton (Okay, that was easy.)

BIRTHDATE: August 26, a Virgo.

AGE: Um, racing towards 65

EYE COLOR: Blue

HAIR COLOR: Mousy brown with elegant touches of gray at the temples

HAIR STYLE: Short and straight

HEIGHT:5'8"

WEIGHT: Not even going there!

FAVORITES

COLORS: Blue, brown, and green. Earth or planet colors.

FOOD: Milk. Round Table pepperoni pizza

DRINK: Milk. Vanilla Coke

MUSIC: Neil Diamond, Joshua Bell, classical music

MODE OF TRANSPORTATION: My blue roan, a 1987 Dodge Colt DL hatchback

SMOKES? Not since March 13, 2000

HOBBIES: Writing, reading

SPORTS: Not even under torture

HOW DO I SPEND A RAINY DAY? Usually inside with all my home's windows wide open so the fresh air fills the rooms. I then spend most of the day with my nose pushed up against the screen with a big silly grin on my face. Have I mentioned I love the rain?

BACKGROUND

HOMETOWN: I was born in Marlborough, MA and grew up in West Brookfield in the same state

TYPE OF CHILDHOOD: Okay

EDUCATION: Grammar school in West Brookfield, then David Prouty High, a regional school in Spencer, MA. Through my working life, I took various classes in California junior colleges, a longer course in computer programming that I loved, and finally a medical transcription

course.

OCCUPATION: Retired, thank goodness

ORGANIZATIONS: None. I'm really not a joiner

ACHIEVEMENTS: Well, I've survived almost to the ripe old age of 65, which is an accomplishment if you knew about my wilder youthful escapades.

DISEASES/HANDICAPS: No handicaps and only T2 diabetes. So far, no biggies.

FAMILY

MOTHER: Bertha (nicknamed Tудie), deceased

FATHER: Samuel (biological), deceased and Allan (step), deceased

SIBLINGS: Older step sister, Barbara

Older real sister, Janice, deceased

Younger half sister, June (same mother)

Younger half brother, Samuel (same father)

TRAITS: Someone here once said I was pompous and condescending, but I hope I'm not. Loyalty to friends is what I consider an important trait, but mostly I'm shy and reserved.

GREATEST FEAR(S): Driving under freeway overpasses. Having something like the Goodyear blimp fall down onto me. The first started after the Loma Prieta earthquake when Oakland's Cyprus freeway near where I use to live crashed. The second is harder to explain. I think in an earlier life I might have been on the Hindenburg.

MOST AT EASE WHEN: I'm alone

MOST ILL AT EASE WHEN: I'm in a crowd of people I hate confrontations and try to avoid nasty or rude people.

SOFT SPOT: Animals, both domesticated and wild

OPTIMIST OR PESSIMIST? Now that the depression of menopause is way behind me, I'm usually an optimist.

INTROVERT OR EXTROVERT? I'm an introvert but have improved in recent years.

MOTIVATIONS: Getting my first novel, "Home of the Red Fox", self published.

SKILLED AT: Nothing that I can think of. I was a good computer programmer once.

UNSKILLED AT: Assembling anything. I once bought a lawnmower and ended

up with the wheels and handles on backwards.

HABITS: Well, I don't smoke or do drugs. I do enjoy a drink now and then, usually a beer or something with rum in it.

REGIONAL DIALECT: I do NOT have an accent.

EMOTIONAL STABILITY: I'm stable ,really I am! The little voices say so!

ATTITUDES/PREJUDICES: I have no patience with prejudiced people. I've spent most of my adult life in a Star Trek world where skin color, religion, and other unimportant things like those no longer mattered.

MARRIED/DIVORCED/SINGLE: Single!!!!

CHILDREN? No

HOW DO I REACT IN A CRISIS? I tend to "run from the bear" or confrontations. Thank goodness, I've had few crises in my life up to this point.

HOW DO I FACE PROBLEMS? I try to make them go away as fast as possible, usually.

HOW DO I REACT TO CHANGE? I don't mind change too much. I have a low boring point and don't like to get into a rut.

I hope this is a proper introduction and that most of your questions are answered. I had fun. I hope you did too!
