You all seems to kidding me. Now I think that why should I have started this topic. Sorry fellas. My men out here aren't underprivilaged to keep working for transcription and outsourcing. I can find another job. Don't think your selves too great by insulting me/or my work or my English. I do jobs given to me, I get paid. Because I respected hospitals and doctors, I thought doing MT isn't a crime.

Now, listen. I mean to you all kidding me or my ways of expressing that I don't ask/take work directly anymore. Please get back and do your business with someone else. Try to give and take respect. Don't ask for it or project like this.

Grrrrrrrrrr
