There was a funny in the new Reader's Digest. Doc's name was Eror. THE patient commented on it and guy said it was really bad when he was a major, imagine a military doctor, Major Eror.

At the Marine Corps base I was statioed at, we had a major whose last name

was Minor.

Major Minor

I bet he couldn't wait for his next promotion.

My husband went into the Navy with a guy named Samples. Guess he didn't think about being Seaman Samples...
